Trees have a unique way of communicating with each other. This happens through a special underground network, which forms when tree roots connect with a kind of fungi. These fungi create a link between trees, allowing them to share nutrients and send important messages to each other. For example, if one tree is attacked by pests, it can release chemical signals through this network to warn nearby trees. In response, those trees can protect themselves by strengthening their physical structures or producing chemicals that insects dislike. Trees can also use this network to signal changes in the environment, such as droughts or diseases, helping the whole forest adapt and survive. This silent communication helps trees work together and support one another. It also highlights why forests are important—not just for individual trees but for biodiversity and ecological health.

29. According to the passage, the special underground network ----.

- A) protects every tree from external threats like fungi
- B) allows older trees to communicate with younger ones
- C) is responsible for water distribution within forests
- D) coordinates signal and resource exchange among trees
- E) increases tree growth through nutrient consumption

30. It can be inferred from the passage that ----.

- A) food exchange among trees happens rarely under ideal conditions
- B) the communication improves trees' ability to deal with environmental stress
- C) chemical signals released by trees only affect the trees that are directly attacked
- D) the fungi in the underground network break down organic matter in the soil
- E) trees use their leaves and branches to communicate with each other

31. What is the passage mainly about?

- A) The adaptation of different species to environmental threats
- B) The underground interactions and connections between trees
- C) The benefits of tree diversity in different ecosystems
- D) The life cycle of fungi found on the roots of trees
- E) The effects of pest attacks and diseases on tree health

In today's competitive job market, young people are searching for ways to distinguish themselves from the crowd. While academic achievements are critical, a well-chosen hobby can serve as a testament to one's personal development, skill set, and character. Thus, employers increasingly value candidates with leisure pursuits, as these activities highlight qualities that make someone a more well-rounded employee. For example, joining a debate club can go a long way towards proving your ability to express complex ideas clearly and persuasively. Similarly, playing a musical instrument or participating in team sports shows that you are not only dedicated but that you also understand the importance of practice and perseverance. Volunteering is another excellent avenue to explore, as it reflects empathy and willingness to embrace new challenges while contributing to the well-being of others. All in all, hobbies are more than mere diversions; they are extensions of your personality that show your strengths and values. The hobbies you choose can be a reflection of who you are and what you bring to the table as a potential employee.

32. According to the passage, a well-chosen hobby ----.

- A) should only indicate one's academic interests and achievements
- B) is less important than academic achievements in a job application
- C) typically does not influence an employer's perception of a candidate
- D) can reflect one's personal development, interests, and range of skills
- E) is primarily for entertainment and has no bearing on professional skills

33. What can be inferred from the passage about the role of hobbies in job applications?

- A) Hobbies should always align with the specific job a candidate is applying for.
- B) Candidates with hobbies are often perceived as less serious about their careers.
- C) Hobbies are viewed as representations of an individual's personality.
- D) Specific hobbies such as joining a debate club are prioritised in job applications.
- E) Hobbies and other activities demonstrate a candidate's ability to manage time effectively.

34. What is the primary purpose of the author?

- A) To argue that only academic achievements matter in the job market
- B) To suggest that hobbies are essential for developing a professional network
- C) To emphasise the necessity of volunteering in all career paths
- D) To recommend specific hobbies that are best suited for young job seekers
- E) To highlight how hobbies reflect personal strengths and enhance employability

Renewable energy technologies, such as solar and wind power, have been praised as groundbreaking solutions for reducing dependence on fossil fuels. These innovations, driven by scientific advancements, have indeed made energy production cleaner and more sustainable. However, a closer examination reveals several challenges that cannot be overlooked. One major issue is energy storage: renewable sources are often intermittent, and current battery technologies struggle to store large amounts of energy for extended periods. Additionally, the high initial costs of installing renewable energy infrastructure make it inaccessible for many developing countries, slowing global adoption. Moreover, while renewable energy reduces carbon emissions, the production of solar panels and wind turbines still relies on materials that can harm the environment and are difficult to recycle. Although the long-term benefits of renewable energy are evident, these obstacles suggest that further scientific and technological innovations are needed before it can fully take the place of conventional energy sources.

35. Which of the following can be understood from the passage regarding the future of renewable energy?

- A) It will soon eliminate the need for conventional energy sources.
- B) Continuous advancements are required for it to completely replace fossil fuels.
- C) The cost of renewable energy will drastically decrease in the near future.
- D) The production process for solar panels has become entirely eco-friendly.
- E) It is expected to dominate the global market without obstacles.

36. According to the passage, most developing countries ----.

- A) make frequent investments in conventional energy sources
- B) have successfully implemented renewable energy technologies
- C) produce solar panels and wind turbines locally
- D) are leading the way in scientific advancements
- E) face challenges in accessing renewable energy infrastructure

37. What is the author's attitude towards renewable energy technologies?

- A) Subjective
- B) Urgent
- C) Apologetic
- D) Critical
- E) Persuasive

Osouji is a Japanese tradition that takes place at the end of each year, typically in December. The term means 'big cleaning', and it involves thoroughly cleaning homes, schools, and workplaces to start the new year with a fresh environment. People take time to declutter, dust, and organise, ensuring that their surroundings are **immaculate** and refreshed. It is a communal activity, with families often working together to clean their homes. In offices, employees take part in cleaning duties, which fosters teamwork and unity. The goal is not only to create a physically clean environment but also to symbolise clearing away the stresses and problems of the previous year. A clean space is believed to encourage a more positive outlook and a sense of renewal for the year ahead. By New Year's Day, homes and workspaces are tidy, representing readiness for new beginnings. *Osouji* reflects the deep cultural value the Japanese place on cleanliness and organisation, offering a way to mentally and physically prepare for a new beginning.

38. According to the passage, *osouji* ----.

- A) involves gathering family and friends to celebrate the new year
- B) requires special rituals and ceremonies to be performed during cleaning
- C) is the most important cultural practice in Japan that people observe during the year
- D) focuses primarily on physical cleaning but also represents emotional renewal
- E) is mainly practised in communal areas rather than living spaces

39. The underlined word 'immaculate' in the passage is closest in meaning to ----.

- A) ordinary
- B) abundant
- C) spotless
- D) modern
- E) crucial

40. Which of the following could be the best title for the passage?

- A) *Osouji*: Ushering in the New Year with a Clean Slate
- B) The Origins of Traditional Cleaning Practices in Japan
- C) Decluttering Tips for Japanese Homes
- D) Cultural Significance of New Year's Festivities in Japan
- E) The Role of Teamwork in Japanese Culture: A Focus on *Osouji*

Enheduanna, widely regarded as the world's first-known female poet, undoubtedly left her mark on early literary tradition. Writing in ancient Sumer around 2300 BCE, she is renowned for her sacred hymns and reflective poems delving into profound spiritual and personal themes. Her poetry stands out for its formal complexity and emotive language, employing poetic devices such as repetition and parallelism, both of which were revolutionary for their time. What sets Enheduanna apart is that her works are among the earliest examples of an individual explicitly claiming authorship—a rare practice at a time when much early literature was anonymous or attributed to collective traditions. Her role as a high priestess gave her a unique and powerful platform, allowing her to blend religious devotion with personal experience. This combination made her not only an individual who performed religious ceremonies but also a pioneering figure in the development of personal narrative in literature. In doing so, she blazed a trail for future writers to explore the self and the divine, leaving her fingerprints in the literary fabric.

41. It is understood from the passage that ----.

- A) Enheduanna's works are distinguished by their intricate structure and passionate tone
- B) ancient Sumerian literature is characterised by a lack of formal sophistication and poetic innovation
- C) early writings from Sumer were mainly personal narratives authored by poets
- D) stylistic elements like repetition were widespread and not considered novel during Enheduanna's era
- E) the themes of Enheduanna's poems are predominantly secular rather than spiritual

42. Which of the following is true about Enheduanna?

- A) Her work is known for its depth and repetitive structure, reflecting the typical style of her time.
- B) She was one of the many female writers whose contributions were only recognised later in history.
- C) Her position as a high priestess limited much of her ability to discuss identity-focused themes in her writing.
- D) She is credited with using groundbreaking literary techniques and establishing personal authorship in her work.
- E) Her writings concentrated mainly on ceremonial events, not religious and sacred topics.

43. What is the passage mainly about?

- A) Enheduanna's role in inspiring later writers to deal with personal and spiritual themes
- B) The limited influence of Enheduanna's works on subsequent writers
- C) The continuation of anonymous authorship in both ancient and contemporary literature
- D) The separation of personal narrative from religious devotion in literature
- E) Enheduanna's poetry that exclusively focuses on divine authority

44. Kevin:

- Have you noticed how many people flock to places on popular social media? It's like everyone wants to visit the same crowded spots.

Mary:

- I know! It's crazy how people will pay extra just to say they've been there, even if it's packed with tourists.

Kevin:

– ----

Mary:

- It's definitely much more fulfilling to discover hidden gems and connect with locals than just follow the tourist flow.

- A) Unfortunately, social media tends to create these unrealistic expectations about popular tourist spots.
- B) Exactly! I'd rather find somewhere less known, where we can appreciate the culture without the crowds.
- C) Indeed, I'd rather visit the most well-known locations than waste my time on isolated ones.
- D) Absolutely! Let's make the reservations in advance to guarantee we get a table with a view of those places.
- E) Why not? It's one of the most popular places in the city! I'd love to check it out.

45. Matthew:

- I think the ancient Persian palaces are absolutely beautiful. It's truly a matter of curiosity how they built such grand structures.

Rachel:

– ----

Matthew:

- What do you mean by that?

Rachel:

- Persian architecture was influenced by earlier civilisations like Mesopotamia, and the Persians took those ideas and added their own artistic and engineering innovations.

- A) Some historians say that the intricate designs and use of advanced engineering techniques were ahead of their time.
- B) Persian architects made use of intricate tile work and ornate carvings to create them.
- C) Well, you should also appreciate the contributions of other cultures to these incredible buildings.
- D) I don't see anything special about them. They look like any other old building.
- E) Mesopotamian influence was minimal, and the Persians borrowed more from the Egyptians than anyone else.

46. Albert:

- I've been struggling with insomnia lately, and it's started to affect my daily life and productivity. Do you have any suggestions?

Claire:

– ----

Albert:

- I had no idea that they could have such an impact on sleep. Perhaps I should reconsider my habit of scrolling through social media prior to sleeping.

Claire:

- That's definitely worth trying. Getting adequate, quality sleep is crucial for our overall health and well-being.

- A) Have you thought about drinking chamomile tea? It's been a game-changer for me.
- B) Listening to calming music or white noise helps me relax and fall asleep more easily.
- C) A consistent bedtime routine and avoiding screens before bed can help you.
- D) I can't offer much advice since I fall asleep as soon as my head hits the pillow.

47. Ava:

- Have you heard about the urban beekeeping trend? I think it's fascinating how people are bringing bees back into cities.

Liam:

- Yes, it's amazing! They play such a vital role in pollination; this trend can help support their populations. Maybe I can start a small beehive on my balcony.

Ava:

– ----

Liam:

- You're right! I guess I should do some research before diving in.

- A) It sounds like a lot of work. Actually, I don't want to deal with the bees myself.
- B) That's a unique approach! I love it, and I'd love to help you build it.
- C) You might as well just buy honey from the store instead. It's much more practical.
- D) I think it's better to let professionals handle bees; it seems a little risky.
- E) You could just plant flowers and forget about beekeeping altogether.

48. Athlete:

- I've been practising my sport for hours every day, but I feel like I'm hitting a wall. No improvements.

Coach:

- Maybe you're overtraining. A little leisure time can help your body recover, and you'll perform better when you're rested.

Athlete:

– ----

Coach:

- **Absolutely. Overworking yourself leads to burnout. You need balance to achieve long-term success.**

- A) I'm afraid I won't get back to it if I stop now. I don't want to lose momentum.
- B) I don't know if resting will make me better, though. Won't I lose my focus?
- C) I can't imagine stopping now. I have so much to improve!
- D) But won't that make me lose my competitive edge? I can't waste my time.
- E) I guess I've been pushing myself too hard recently. I should take some rest.
